-We hear a rumor to the effect that work is to be suspended on the new school building until spring. We hope that such will not be the case, and do not see why it should be, as we are reliably informed there is no lack of means for pushing the work. TENTH ANNUAL SESSION

OF THE Carbon County Teachers' Institute.

Monday, Nov. 17, 1873.—The Insti-tute was called to order by the Presi-dent, R. F. Hofford, C. S., at 2 o'clock P. M. The following officers were duly elected: Vice-President, Prof. B. C. Youngman; Secretary, T. W. Renshaw; Assistant Secretary, Mrs. Frisbie; Trea-surer, Prof. B. C. Youngman. The following Committee on Resolu-

tions was then appointed by the President: Rev. C. Kessler, Mr. D. S. Gross-

man and Miss Sue E. Zern.
It was, on motion, resolved, that the fees of male teachers be 50c, and females 25c. as heretotore.

Time at this point was allowed for the enrollment of members — 3G teachers handed in their names and paid their

The President in a short address, welcomed the teachers; encouraged them in their work, pointing to the times as indicating the course they should pursue in the future. Among other important things, he said he be-lieved that the present state of the country was owing, in a great measure, to the neglect of moral culture in our

schools for the past twenty years.

A motion to meet Tuesday morning at 8.30, was negatived, and the Instituted then adjourned to meet at 9 A. M.

SECOND DAY .- TUESDAY. Morning Session. — The President called the Institute to order at 9 o'clock.

Minutes of Monday's proceedings read and approved. Singing and prayer by Rev. Leighton

Coleman. Messrs, Rowland and Renshaw and Miss Jones sang the beautiful trio of "Lay him low," which was highly appreciated. Mr. Motzer was then called upon to

give his methods of teaching geography. A discussion upon the subject ensued which was opened by D. S. Grossman and participated in by Rev. L. Coleman, Messrs. Edwards, Youngman, Renshaw, Van Sheetz and Hollinger. Recess of 15 minutes. -On the call to

order, a trio was sang by Messrs, Ren-shaw and Rowland and Miss Jones, which was followed with exercises in mental arithmetic by P. Edwards, upon which a very interesting discussion en-sued, participated in by Messrs. Hollinger, Urban and others. On motion, it was Resolved, That the

sessions of the Institute should be held as follows: Moraing from 8.30 to 11.30, and afternoon from 1.30 to 4.30. Afternoon.—Institute called to order

at 1.30. After calling the roll, the In stitute sang "Fair as the morning." L. H. Barber then took the floor and

introduced the subject of "English— Its History." The speaker, at some length, traced the origin of our language to its many sources; and was list-ened to with marked attention. He was followed by Rev. E. r'errier, of Mauch Chunk, who made some very interesting remarks on the same subject. Rev. A. R. Urban asked a question, which being answered the subject was

dropped. After an interval of 15 minutes, Mr. J. P. Rowland and Miss Jones sang the "Photograph," which afforded much pleasure.

Prof. A. R. Horn then took up the subject of "History," handling it in a very masterly style, and occupying the time until four o'clock.

A discussion followed in regard to the Committee on Resolutions. Thirteen teachers were enrolled du-

Evening.—Prof. A. R. Horn, of the Keystone Normal School, delivered a lecture upon the subject of "Hustrative Teaching." He made it plain that teaching might be made attractive to Teaching." He made it plain that teaching might be made attractive to the children in schools by methods of illustration. The gentleman spoke at some length upon the deleterious effects of defective ventilation in school-rooms and public halls, arising from poisonous gases generated in such places. speaker was listened to attentively by a full house.

-The publication of the Lectures delivered before the Institute will commence in our next issue.

Cut his Finger Off.

Dr. C. S German, of this borough, was engaged chopping firewood on Monday afternoon last, when he unfortunately struck the second finger of his left hand, performing one of the neatest surgical amputations with that instrument we ever witnessed. Dr. N. B Reber was sent for, and speedily and neatly dressed the stump. We are pleased to state the Dr. is himself again.

George Kemerer, of Mahoning Valley, in tearing down a chimney in au old log house, a few days ago, found an iron plate about two feet square, bearing the following inscription:

das, welb. des sycht Joseph. Zv. entzvyde im. I. B. mose. 12. 6, 1749. Beneath which is a man holding a club in his uplifted hand over a woman in a recombent position. Can any of our readers give us light in regard to this ancient plate?

Burglary.

We learn that on Saturday evening last, some base scoundrels broke into the dwelling house of Harrison Smith, situated near the paint mill, in Towamansing. The family were absent at the time, attending a wedding in the neighborhood. The thieves bursted the lock off the door, to gain admission to the premises, and after ransacking the premises, they left, carrying off an old trunk, which they broke open when a short distance from the house. Finding only three promissory and two deeds in the trunk, they left it there, and went on to seek some more fortunate spot, where they might find a bunch of green-back to reward them for their toil.

-The Keystone Lyceum will meet in Reber's Hall, Monday evening at 7:30

Teachers' Institute.

LEHIGHTON ACADEMY, Nov. 8th .-Institute was called to order by the Presidentat 1.45 o'clock P. M. Minutes of previous meeting were read and adopted. The members of the Institute were all present. Misses Zern and Baker, and Messrs. Hofford, Renshaw, Rowland and Horn favored the Institute with their presence and assistance.

The first exercise was the reading of an essay by Miss Waver, subject: "The Teacher's Influence over the Pupil." An animated discussion followed the reading of the essay; the speakers were Messrs. Rowland, Repshawand Hofford The next subject taken up was Mental Arithm-tic, by Miss Bauer; after reading an essay on the subject and suggesting methods of teaching the branch, problems were given to the different members of the Institute : this proved to be an interesting and instructive exercise. An essay was next read by D. S. Grossman, subject: " Composition;" the reading was followed by an able discussion of the subject.

The subjects adopted for discussion at the next meeting were as follows: "How teachers should employ their time outside of the school-room," Miss Paul; "English Grammar," Mr. Renshaw; " How teachers can best secure the regular attendance of the pupils,' Miss Heilman; "Theory and practise of teaching," Rev.
